

DIGITAL FORENSICS AND CYBERSECURITY PROGRAM

Offering:

- Master of Science In Forensic Computing
- CSIBridge: Computer Science for Digital Forensics Certificate
- CAD4SCI: Certificate of Applied Digital Forensic Science (pending)

Graduate Fellowship in Digital Forensics and Cyber Security

Two years of support with
Full Tuition + up to \$30,000 annual stipend

Apply for Fall 2012 Fellowship by April 1, 2012

John Jay College invites applications for its Graduate Fellowship Program in Digital Forensics and Cyber Security. The fellowship is part of a collaborative effort between John Jay and NYU-Poly to educate the next generation of cyber security researchers who need to understand the complex interplay between computer security and forensics, economics, public policy and law. The program is sponsored by a NSF IGERT award obtained in collaboration with NYU-Poly's computer science department. The fellowship will be awarded to a computer science graduate who plans to pursue doctoral studies in computer security.

Tuition + Stipend. The fellowship award is for full-time study by a citizen or permanent resident and will provide tuition support and an annual tax free stipend of up to \$30,000 for up to four semesters. The Fellow will join John Jay's graduate program in digital forensics and cyber security. Our program offers a Master of Science in Forensic Computing that integrates computer science with criminal justice, information assurance and digital forensics. While pursuing the M.S. degree, the trainee will do thesis research and work as a research assistant with faculty at John Jay College and NYU-Poly. The fellowship offers M.S. students the unique opportunity to become active in research early in their graduate careers. Female and minority candidates are encouraged to apply.

To Apply: Submit an online application by April 1, 2012 at www.jjay.cuny.edu. In addition to the standard online application and admission requirements, applicants for the Graduate Fellowship in Digital Forensics and Cyber Security need to follow these guidelines when submitting their online application:

- Email a letter to the Program Director, Professor Richard Lovely, at rlovely@jjay.cuny.edu that notes the applicant's interest in the Graduate Fellowship along with the applicant's résumé or c.v.
- The required personal statement in the online application should describe the applicant's interests in digital forensics and cyber security.
- The three required letters of reference must be from faculty who can speak to the applicant's suitability for future doctoral studies in digital forensics and cyber security.

For More Information:

- Contact Prof. Richard Lovely, D4CS Director, at rlovely@jjay.cuny.edu
